Department of medical tourism, Jen-Teh Junior collage of medicine, Nursing and mangement, Miaoil, Taiwan.

There are large variety of facial mask packing bags in the market. However most of them are impractical. we design 3 features in the Stereoscopic Facial mask packing bag.

including shrink design , stand up bag and fluid storage space. The facial mask can be taken out quickly and the liquid inside won't outflow. The invention is practical, convenient, not easy to fall and space-saving.

現今面膜包裝設計種類繁多，缺少實用性，我們設計3大特色「立體式面膜包裝袋」包含：縮口設計、站立設計、儲液空間。
「立體式面膜包裝袋」可快速取出面膜，不易造成液體翻落。本發明創作為實用性、便利性、不易翻落、不佔空間之4大好處。
